Crypto Mastery Course Syllabus

Course Description

The **Crypto Mastery Course** is a **step-by-step guide** to mastering the world of **cryptocurrency, blockchain, and decentralized finance (DeFi)**. Designed for both **beginners** and **experienced investors**, this course provides **practical tools** and **insights** to help you **navigate, invest, and succeed** in the fast-changing crypto space.

Through **19 focused sessions**, you will learn everything from the **basics of blockchain** to **advanced strategies**. The course also covers **Web 3.0 technologies, decentralized exchanges (DEX), Centralized wallets (CEX), NFTs, and meme coins**, giving you **hands-on experience** with tools like **Coin Market Cap, Binance, DeFi Llama, Decentralized wallets Dexscreener, Token Unlocks, and Pump.fun**.

Why Take This Course?

1. **Comprehensive & Practical** – Learn with **real examples** and tutorials to **apply your knowledge** instantly.
2. **Expert Guidance** – Gain access to **proven strategies** used by top investors to stay ahead in the market.
3. **Community Support** – Join the **Cryptokers community** and access a **premium Telegram channel** for **ongoing updates and insights**.
4. **Certification** – Receive a **Crypto Mastery Certificate** to showcase your skills and expertise, and to have the privilege of being a member in **Cryptokers Community**.

By the end of the course, you'll **confidently navigate the crypto world, spot early investment opportunities**, and position yourself among the **top 1% of crypto experts**. This is more than just a course, it's your **path to success** in the **new digital economy**.

Sessions Overview

1. The Evolution of the Internet: From Web 1.0 to Web 3.0 – Duration: 10 minutes

Explore the evolution of the internet and how Web 3.0 is reshaping technology and finance.

2. The Blockchain – Duration: 19 minutes

Learn the fundamentals of blockchain, its types, and unique features.

3. Web 3.0 Projects – Duration: 27 minutes

Understand Web 3.0 categories, project utilities, and how to distinguish between them.

4.1 Tokenomics – Duration: 19 minutes

Master key economic elements of cryptocurrencies to improve strategies and predict outcomes.

4.2 Token Unlocks Tutorial – Duration: 14 minutes

Learn how to monitor token unlock schedules and assess their market impact.

5.1 Basic Research – Duration: 10 minutes

Discover research tools and platforms to identify trends and growth opportunities.

5.2 Coin Market Cap Tutorial – Duration: 25 minutes

Learn how to analyze crypto data, trends, and portfolios using CoinMarketCap.

6.1 Blockchain Comparison – Duration: 35 minutes

Compare over 15 blockchains, their technologies, and adoption mechanisms.

6.2 DeFi Llama Tutorial – Duration: 6 minutes

Track Total Value Locked (TVL), assess protocol performance, and find DeFi opportunities.

7. Potential Study and Comparison – Duration: 16 minutes

Set targets for investments based on technology adoption, narratives, and performance.

8. Decentralized Finance (DeFi) – Duration: 10 minutes

Learn DeFi concepts, features, and how to build financial systems without intermediaries.

9. Decentralized Exchange (DEX) – Duration: 24 minutes

Master peer-to-peer trading, avoiding intermediaries, and leveraging DeFi tools.

10. Lending and Borrowing – Duration: 10 minutes

Explore decentralized lending platforms and learn to unlock financial opportunities.

11.1 Centralized Exchange (CEX) – Duration: 16 minutes

Understand centralized exchanges, secure trading, and their advantages.

11.2 Binance Tutorial – Duration: 1 Hour & 9 minutes

Learn to navigate Binance, set up accounts, trade, stake, and optimize transactions.

12.1 Decentralized Wallet (DW) – Duration: 9 minutes

Understand decentralized wallets, security, and how to manage crypto assets.

12.2 Decentralized Wallet Tutorial – Duration: 13 minutes

Set up and use wallets like MetaMask and HashPack to interact with dApps securely.

13.1 Network Transfers – Duration: 11 minutes

Learn how to transfer assets across networks securely and efficiently.

13.2 Network Transfers Tutorial – Duration: 10 minutes

Dive into crypto transfers, transaction flows, and confirmations.

14.1 Non-Fungible Tokens (NFTs) – Duration: 16 minutes

Explore NFTs, how they work, and their role in the crypto market.

14.2 NFTs - Magic Eden Market Place Tutorial – Duration: 8 minutes

Learn to buy, sell, and trade NFTs securely using NFT marketplaces.

15. Meme Coins Introduction – Duration: 5 minutes

Analyze meme coins, their risks, trends, and market strategies.

16. Meme Coins Categories – Duration: 15 minutes

Explore categories of meme coins, their psychology, and cultural impact.

17.1 Dexscreener – Duration: 4 minutes

Discover how to analyze liquidity, market data, and trends using Dexscreener.

17.2 Dexscreener / Pump.fun Tutorial – Duration: 34 minutes

Learn to use Dexscreener and create meme coins using Pump.fun.

18. Trading Bot and Tracking Tutorial – Duration: 14 minutes

Set up trading bots and tracking tools to optimize strategies and monitor transactions.

19. Full Example Tutorial – Duration: 31 minutes

Walk through a real-world example, searching, buying, staking, swapping, and lending on DEX platforms.
